

尿検査（検尿）の実施について（英語版）

URINE ANALYSIS

We are carrying out urine analysis which is to check if your child's urine contains protein, sugar or blood and to find out if your child has sickness that needs to be cured. Please follow the instruction below and hand it in to your child's class teacher by the due date.

- Please send your child to toilet to urinate before going to bed the night before collection day.
- First urine in the morning has to be collected. Your child may put his urine in a paper envelope provided first. Then fill the plastic container up to the line with the urine. Please tighten the top.

(日)

(日)

- Please hand in on _____. If failed, please do not submit after _____ and wait for the instruction by the school.

Thank you for your co-operation.

Regards,
